REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 45-48 in this case is the inclusion of the method steps providing a website displaying multiple insurance policies which rebates can be applied; receiving user selections for selected policies for applying the rebates; identifying, at the website, an insurance account associated with the user selected insurance policy; identifying, at a website, a credit card account; linking the account with the credit card account; calculating a rebate based on a purchase amount on the credit card; transmitting the rebate amount to a processing system associated with the insurance account and applying the rebate to the insurance account in combination with the other elements recited, which is not found in the prior art of record.

The primary reason for the allowance of claim 51 in this case is the inclusion of the method steps for linking the medical services account to a second account; detecting insufficient funds in the medical services account; and transferring the detected insufficient funds amount out of the second account in combination with the other elements recited, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
